

## Verifying Permissions

- ## Check User Permissions by Resource

<input type="checkbox"/>	test@example.com	test test	Approve Group	<div> <div>User Details</div> <div>Delete this user</div> </div>	 
<input type="checkbox"/>	test1@example.com	test test	Approve Group		 

The resulting output will display the detailed permissions for that user and resource combination.

## User Permissions Chart

Click the "Chart view" sub-tab and the chart page will open.

You may also access the User Permissions Chart by clicking the User icon for the user from the Users List.

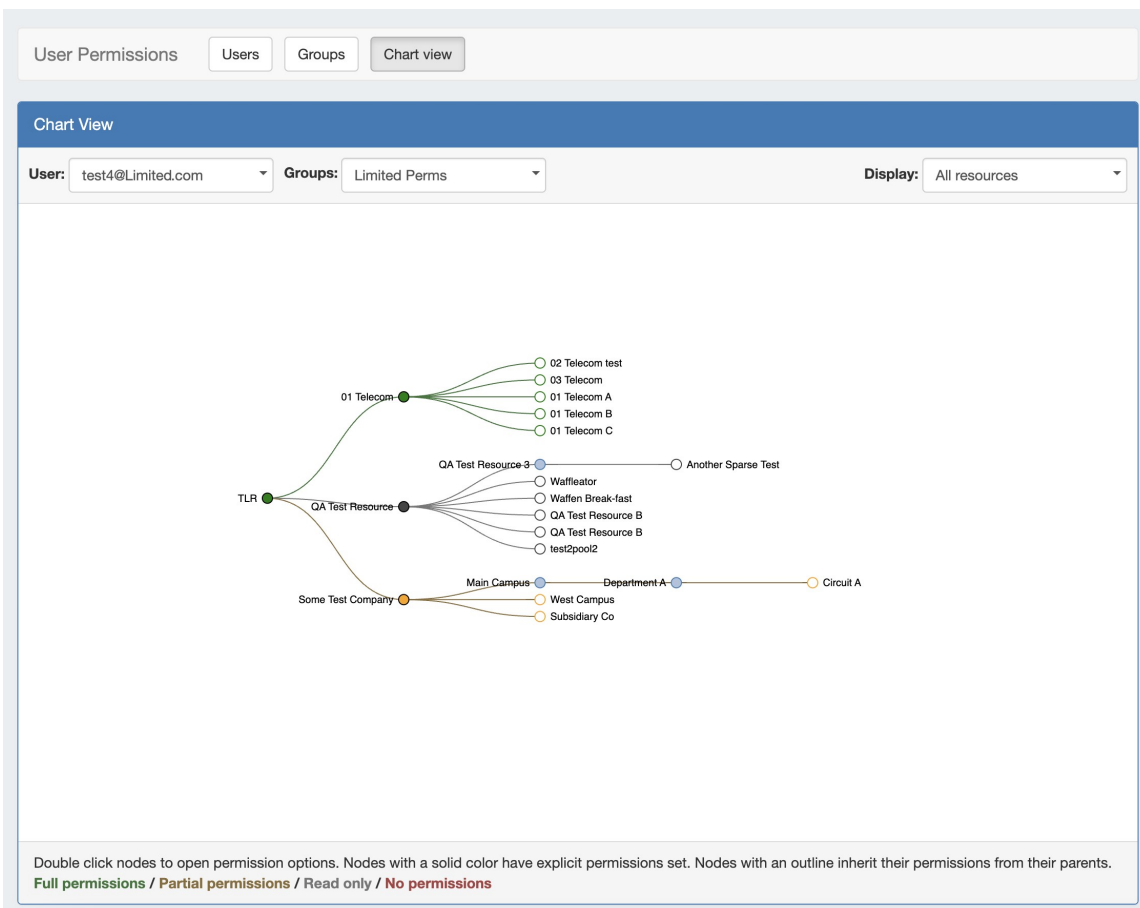

Results 10

Users items per page 50 Filter by group... Search...

<input type="checkbox"/>	Info	Username	Full Name	Groups	
<input type="checkbox"/>	External	Administrator SAML	-	-	
<input type="checkbox"/>	External	bobber RADIUS	-	-	
<input type="checkbox"/>		limited@example.com	Limited Test	Limited 1 - QA Test Resource	

Once in Chart View, you can graphically view the permissions level of a user by selecting their user name and group from the dropdowns at the top of the chart.

The resulting chart will be color coded depending on permissions level.

Single clicking on a filled circle resource node will expand and collapse the node. You may also filter the results by selecting an option from the "Display" dropdown.

Double clicking on a resource will open up the Edit Permissions box, where CRUD permissions may be updated for allowed Resources. Check / Uncheck the desired permissions level, and click save.
