

## Managed Backups Web Interface

**Type:** Data-only (the backup has full database dump and no code), data-only-partial (the backup has database dump without several log, monitoring etc. tables), full (full database + code backup).

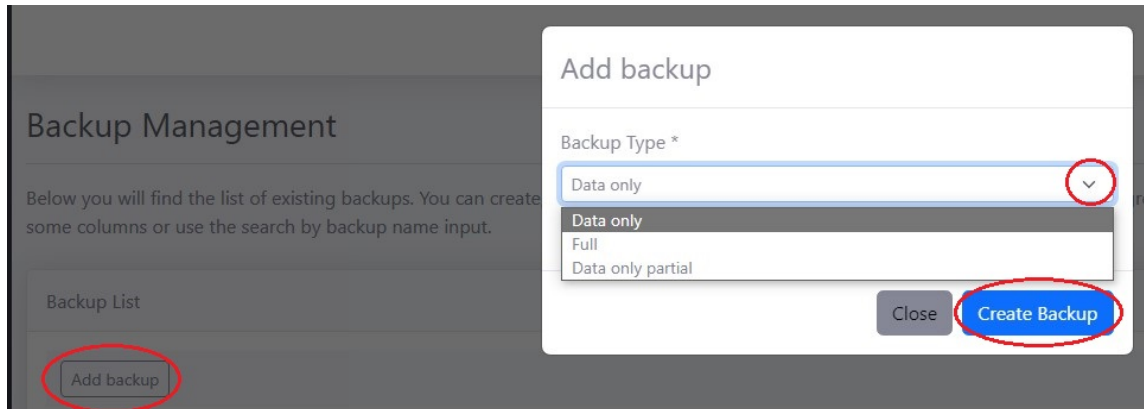

**Created:** Date of creation.

**Size:** In bytes.

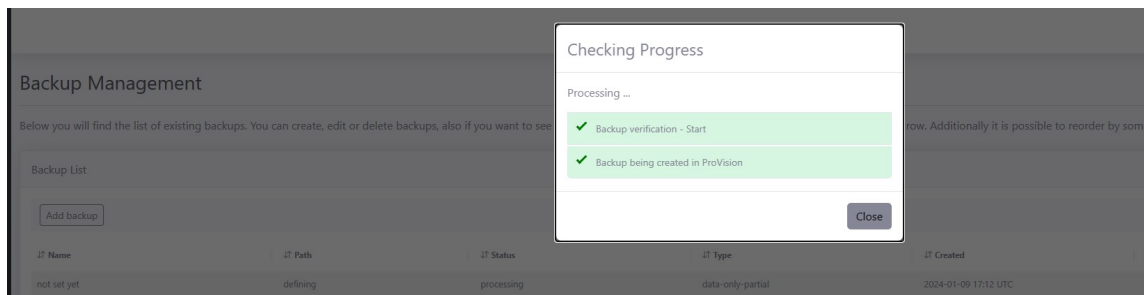

**Options:** Show backup process, delete.

## Adding a Backup

Manually request a backup of specific type by clicking the "Add Backup" button at upper left of the backups list. Select the type of backup from the dropdown and click "Create Backup".

After selecting the backup, a new row is added to the list. Click on the progress icon in the "Options" column to monitor the progress of the backup.

## Checking Progress

- ✓ Backup verification - Success
- ✓ Backup verification - Clean up
- ✓ Backup verification - Verifying database integrity
- ✓ Backup verification - Verifying restore of the dump: PVOK
- ✓ Backup verification - Verifying restore of the dump: 89 sec, 82%
- ✓ Backup verification - Verifying restore of the dump: 77 sec, 71%
- ✓ Backup verification - Verifying restore of the dump: 70 sec, 69%
- ✓ Backup verification - Verifying restore of the dump: 63 sec, 68%
- ✓ Backup verification - Verifying restore of the dump: 52 sec, 59%
- ✓ Backup verification - Verifying restore of the dump: 47 sec, 50%

Close

A backup being created in ProVision may take some time depending on the size of the database.

## Backup Settings Management

This view displays all the backup settings. You can configure the backup retention period for logs and backups, the HDD quota percentage, and the number of backups you want to limit. Remember to hit the save button after making any changes.

Backup Settings

Retention period logs

15 d

Retention period for logs in days

HDD quota percent

95 %

HDD quota limit in percentage %

Retention period backup

10 d

Retention period for backups in days

HDD quota of backups

10

HDD quota limit in number of backups

Timezone

UTC

Save

Copyright © Devolon Build in 2022

Adjust the sliders to set:

**Retention period logs:** How many days to keep the logs.

**Retention period backups:** How many days to keep a backup file.

**HDD quota percent:** When the storage reaches this percent an email will be sent. This checks only the utilization of the partition where the backups are stored, not every partition of the system.

**HDD quota of backups:** How may backups to keep (eg. last 10).

Click "Save" after making any changes.

## Task Scheduler

**6 PV-BACKUP V1.0.0**

ops@6connect.com

## Task Scheduler

Below you will find the list of scheduled tasks. You can edit or delete tasks or run a task manually by clicking the "Run Task" icon in the table row. You can also search tasks by name.

### Task List

Filters Show: ☒ Active ☐ All Search by name... Search

<b>TASK NAME</b> Full Backup <b>ACTIVE</b> <b>REPEAT INFO</b> 1st of every month at 06:00 UTC <b>RUN TASK</b> <b>VIEW TASK</b>	<b>TASK NAME</b> Data-only backup <b>ACTIVE</b> <b>REPEAT INFO</b> Monday at 05:00 UTC <b>RUN TASK</b> <b>VIEW TASK</b>
<b>TASK NAME</b> Data-only-partial <b>ACTIVE</b> <b>REPEAT INFO</b> Sunday at 06:00 UTC ... <b>RUN TASK</b> <b>VIEW TASK</b>	<b>TASK NAME</b> Delete Backup <b>ACTIVE</b> <b>REPEAT INFO</b> Every 5 minutes <b>RUN TASK</b> <b>VIEW TASK</b>

There are currently five pre-defined system tasks:

**Full Backup:** Creates a full backup (data+code). By default, on the 1st of every month 6:00 UTC.

**Data-only backup:** Creates a data-only backup (full data, no code). By default, every Monday 6:00 UTC.

**Data-only-partial:** Creates a data-only-partial (data without log/monitoring tables, no code). By default every day of the week 6:00 UTC, except Monday.

**Delete Backup:** Deletes expired backups and logs (related to Retention period logs/backup and HDD quota of backups). By default every 5 mins.

**FreeSpace:** Checks the remaining free space and sends email notification if the free space is below the threshold. By default every day 8:00 UTC.

## Editing or Executing a Task

Users can manually execute each task or modify its schedule.

To view task settings, click "View Task".
