Document Storage

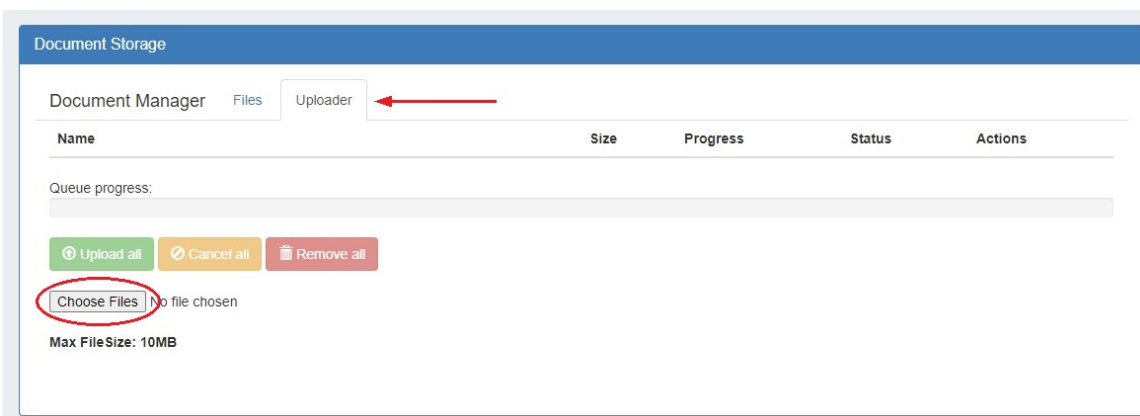

The Document Storage gadget allows you to upload documents to a resource, and have those documents accessible to download from the cloud to your local machine. It may be enabled on any section type.

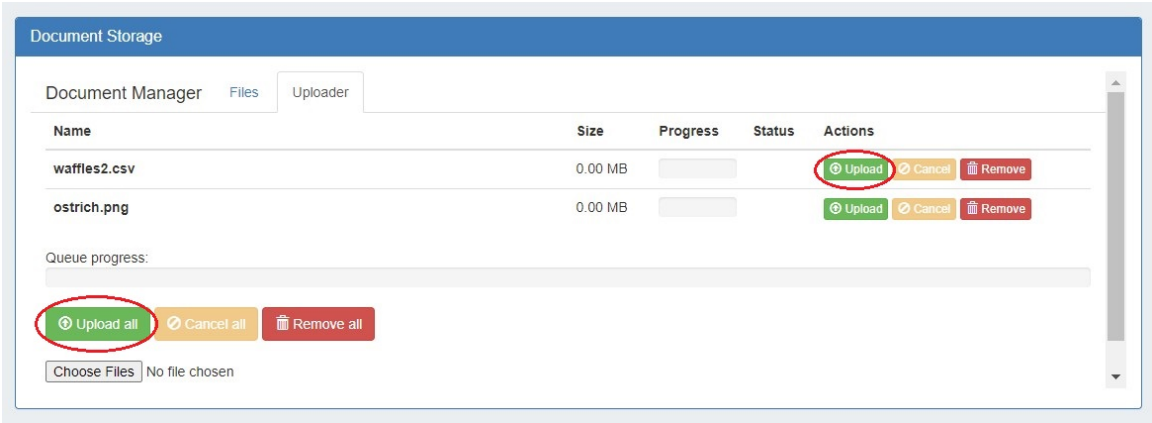

Upload Files

First, ensure the Document Storage Gadget is enabled for the section type. Then, select the "Uploader" tab under the Document Manager Gadget.

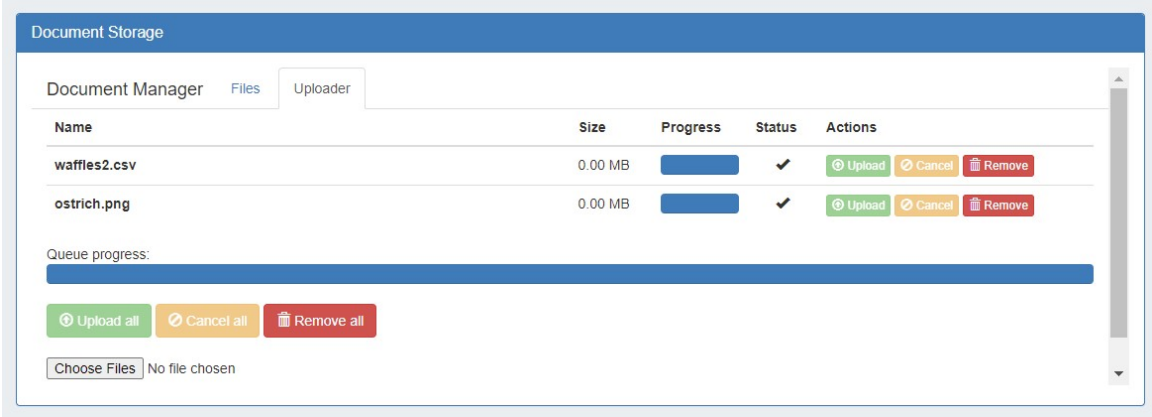

Click on the "Choose Files" button, and select the file(s) you would like to upload.

The selected files will show in a list under the Uploader tab. To upload the file(s), click on either the "Upload" button adjacent to the file to upload the individual file, or the "Upload All" button to upload all files listed. You may also choose to remove files from the upload list, or cancel.

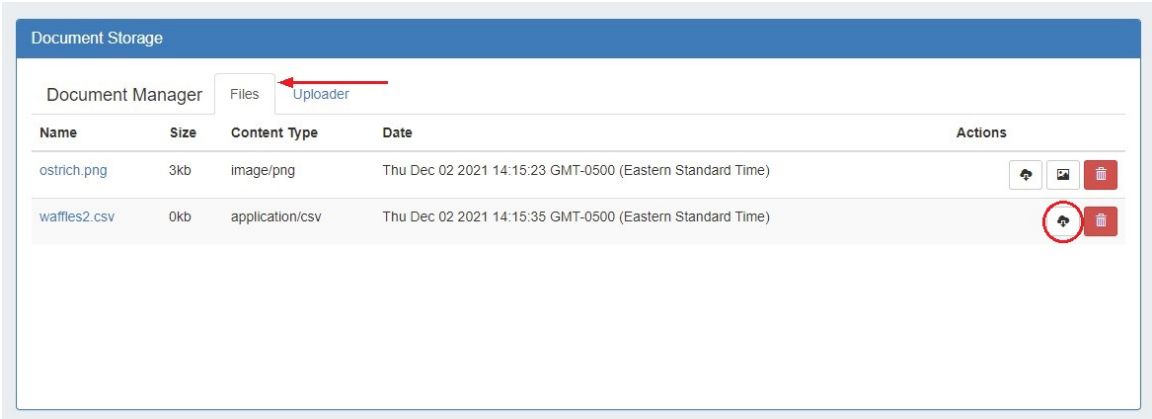

Once the progress bar is filled in, your upload is complete! Your files will show under the "Files" tab.

Download Available Files

Successfully uploaded files are listed under the "Files" tab of the Document Manager Gadget. From here, you can see the file name, size, type, date, and available actions.

To download a file to your local machine, ensure you are on the "Files" tab, then click on the "Download from Cloud" icon.

If a file is no longer needed, you may delete the file from the Document Manager by clicking on the Delete (trash can) icon.

Note: The uploader has a file size limit of 14mb, files above this size will not successfully upload.

Encrypted Data Gadget

The Encrypted Data Gadget allows you to store sensitive information in an encrypted format.

Encrypted data

Encrypted Data Example

Encrypted data exists. [Click here to decode it.](#)

Working with the Encrypted Data Gadget

First, ensure the Encrypted Data Gadget is enabled for the Section type. When first added the gadget will display empty with an "Edit" button available.

Encrypted data

Encrypted Data

Edit

Click "Edit" to change the title and enter data into the text area.

Encrypted data

Encrypted Data Example

Some data here.

Save Cancel

After you click "Save" the data will only display as plain text when the "Click here" text is selected by a user with update permissions for the resource.

Encrypted data exists. [Click here to decode it.](#)

Decoding the text also allows you to edit the field data or gadget title again.

Notes

The Notes Gadget is a simple text area box, where you can save text notes relevant to the resource.

To save a note, just click inside the note box, type the desired notes, and click the "Save Notes" button.

The screenshot shows a web interface for a 'Notes' gadget. It has a blue header bar with the word 'Notes' in white. Below the header, there is a text area containing the text 'This is a note|'. At the bottom right of the text area, there is a blue button with the text 'Save Notes' in white. The button is circled in red.

Tech Info

This gadget is used on the Resource Holder Section type, and allows you to list DNS servers, ARIN information, and enable/disable customer privacy.

The screenshot shows a web interface for a 'Tech Info' gadget. It has a blue header bar with the text 'Tech Info' in white. Below the header, the interface is divided into several sections:

- DNS Servers**: A table with two columns. The first column contains 'ns1: ns1.example.com', 'ns2: ns2.example.com', and 'ns3:'. The second column contains 'ns4:', 'ns5:', and 'ns6:'.
- ARIN Info**: A section with four rows. The first row contains 'Org ID: 1234' and 'Abuse POC: Jane Smith'. The second row contains 'Org POC:' and 'Origin AS:'. The third row contains 'Net POC:'. The fourth row contains 'Residential Customer Privacy: Disabled'.

At the bottom right of the gadget, there is a blue button with the text 'Edit' in white.
