

# **ProVision 3.9.3**

## **Overview**

The 3.9.3 minor release provides a few new DNS features.

### **New Features**

#### **Per Server DNS View Support**

Enable, disable, and manage views on a server level. This enables every server to have it's own unique combination of views implemented, or none at all.

#### **Secure64 DNS View Support**

Support for views with the Secure64 DNS system.

### **Bug Fixes**

None.
