

# Resource Importer Walkthrough - Step 3

## Importing Resources

### Step 3: Reorder .csv columns to match the Section Grid column order

One of the most important steps is to reorder the columns from the .csv data to match the order of the Section Grid headers - think of the importer as copying and pasting the csv data into the "Contact" Section grid- we want to ensure that the data is under the correct headers!

**Click on the column header to Drag and Drop to the desired location:**

#	<input type="checkbox"/>	Unique ID	Last Name	First Name
0	<input type="checkbox"/>	6c-004	Hughes	Aaron
1	<input type="checkbox"/>	6c-004	Parker	John
2	<input type="checkbox"/>	6c-004	Taylor	Tom
3	<input type="checkbox"/>	6c-007	Smith	Bob

Click back and forth between the tabs to verify the column order, then click on a header and drag and drop into the desired order. This moves not only the header, but also the data below it.

### Common Column Editing Questions

What if just my column headers are in the wrong place?

What if I have too many / too few columns in my .csv to match the Section Grid?

If you see any of these issues, proceed to [Step 4 - Edit data as needed](#).

Otherwise, if your columns match up perfectly and none of the data needs editing, skip to [Step 5 - Drag rows to the Section Grid](#)
