

Customizing Sections

Customizing Sections

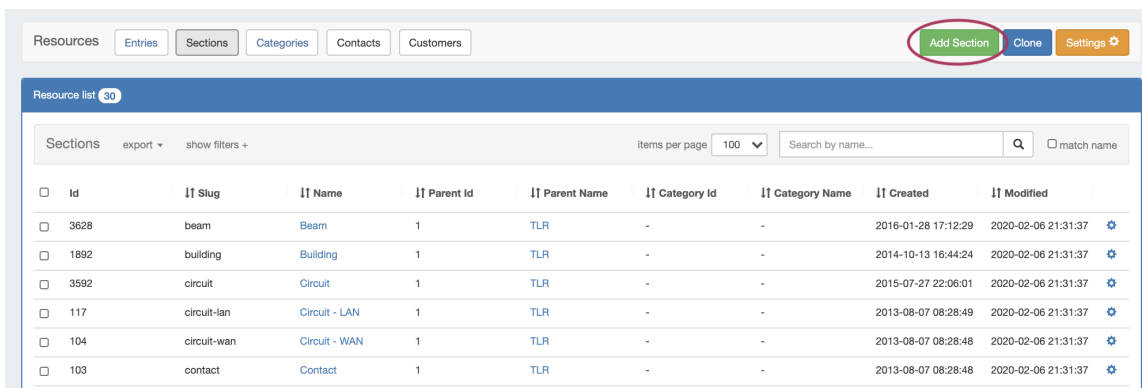

You can create as many Sections as you wish (Firewall, Server, VM, Virtual Interface, etc.) and customize the Gadgets and fields that apply to each Section.

For example, you may not need to track the console port for your virtual firewall, so you would simply not use that field for the "Virtual Firewall" Section. This way you can still track the console port for your physical firewalls like normal.

- Customizing Sections
 - Step 1: Create a New Section
 - Step 2: Add a Custom Field to a Section
 - Step 3: Edit Custom Field Data
 - Step 4: Add Gadgets to your Section
 - Additional Information

Step 1: Create a New Section

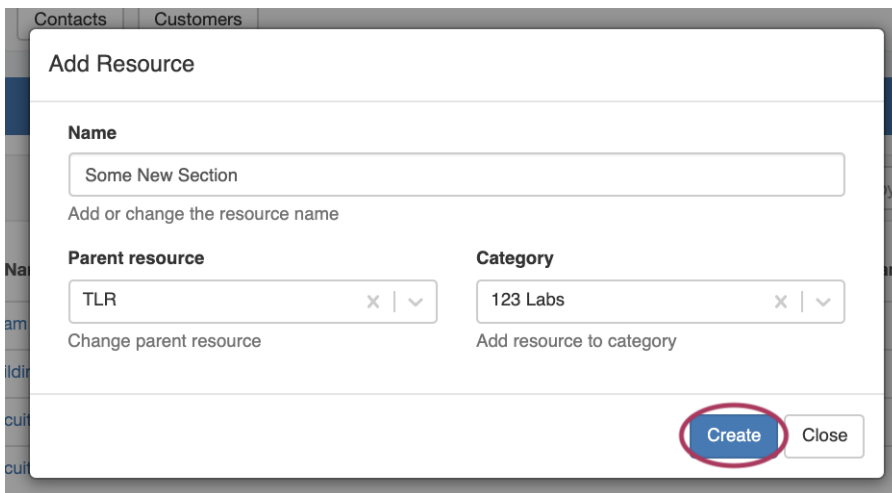

Click "Add Section" from the **Sections** view button under the **Resources** Tab

The screenshot shows the 'Resources' tab with the 'Sections' view selected. The 'Add Section' button is circled in red. Below the button is a table of existing sections.

<input type="checkbox"/>	Id	Slug	Name	Parent Id	Parent Name	Category Id	Category Name	Created	Modified	
<input type="checkbox"/>	3628	beam	Beam	1	TLR	-	-	2016-01-28 17:12:29	2020-02-06 21:31:37	⚙
<input type="checkbox"/>	1892	building	Building	1	TLR	-	-	2014-10-13 16:44:24	2020-02-06 21:31:37	⚙
<input type="checkbox"/>	3592	circuit	Circuit	1	TLR	-	-	2015-07-27 22:06:01	2020-02-06 21:31:37	⚙
<input type="checkbox"/>	117	circuit-lan	Circuit - LAN	1	TLR	-	-	2013-08-07 08:28:49	2020-02-06 21:31:37	⚙
<input type="checkbox"/>	104	circuit-wan	Circuit - WAN	1	TLR	-	-	2013-08-07 08:28:48	2020-02-06 21:31:37	⚙
<input type="checkbox"/>	103	contact	Contact	1	TLR	-	-	2013-08-07 08:28:48	2020-02-06 21:31:37	⚙

Create a new Section by specifying a Name, Parent, and Category. Then hit the "Create" button.

The screenshot shows the 'Add Resource' form. The 'Create' button is circled in red. The form contains the following fields:

- Name:** A text input field with the value 'Some New Section'.
- Parent resource:** A dropdown menu with the value 'TLR'.
- Category:** A dropdown menu with the value '123 Labs'.
- Buttons:** 'Create' and 'Close' buttons.

Step 2: Add a Custom Field to a Section

Manage existing fields and add custom fields for the selected Section by opening the Action Menu for the section, then clicking "Edit".

<input type="checkbox"/>	14686	some-new-section	Some New Section	1	TLR
<input type="checkbox"/>	99	switch	Switch		LR
<input type="checkbox"/>	14682	6c-systemas	SystemAS		LR
<input type="checkbox"/>	3729	user	User		LR
<input type="checkbox"/>	931	virtual-dc	Virtual DC		LR

Add existing or [Custom Fields](#) for your Section. You can add new [Custom Fields](#) of different types (text input, text area, choice box, radios, checkbox) by dragging and dropping the fields as well as using any existing fields that are available. See the [Customizing Fields](#) page for more details.

- T Series

Slug: 6c-model

This is a protected System Field. Only 'options' and 'help block' can be changed.

Save Cancel

Any fields enabled here will be available to add to the [Field Gadget](#), if desired.

Step 4: Add Gadgets to your Section

You will notice on this customization screen that you also have an area for [Gadgets](#). Gadgets are modules of additional functionality that can be added to the UI of a given Resource. Simply select the Gadget you want to show for that section, hit "Add".

Manage Gadgets
Gadgets are mini applications that can add extra features to your resources.

There are currently no gadgets assigned

Gadgets

- ✓ Contact Info
- DHCP Server
- DNS
- IPAM
- Peer Groups
- Peering Sessions
- VRFs

Once added, you may organize them by dragging into the order you wish them to appear on the page. You may also remove added Gadgets by clicking the "delete" icon.

Manage Gadgets
Gadgets are mini applications that can add extra features to your resources.

Resource View
Display fundamental details about the resource.

Contact Info
This gadget adds a field editor for fields related to contact info (phone, address, ect).

Tech Info
Manage DNS Servers and ARIN Info.

IPAMv2
Internet Protocol address management - Version 2.

Contacts
This gadget allows you to associate Contacts with the entry.

DNS
DNS

Resource Linkage
Create links to other resources.

When done, click "Save".

Once added to the Section, Gadgets will be visible for all Resources of that Section.

For a detailed list of gadgets and descriptions, see the [Gadgets](#) page.
